

de protect/2 Bluetooth™ the online Data Collector

deister electronic provides high-end technology for guarding, maintenance and facility management markets.

Thanks to an ongoing innovation process dataLog® has developed into standard solution for all applications where checkpoints and service information are to be managed with a high grade of efficiency.

de protect/2 Bluetooth™

This latest generation data collector reads proximity checkpoints, stores the data with date and time. The readings are transmitted via an integrated Bluetooth™ module to a GSM mobile phone or any other Bluetooth™-compatible device. The data is forwarded to the Online Patrol software at the company's head-quarter. If the GSM connection is temporarily not available, a patented dead-spot memory stores the data for immediate transmission when the connection is restored.

To protect personnel, a motion sensor provides a "man-down" alarm. An emergency call button summons help if needed.

Thanks to the Bluetooth™-connection the deprotect/2 operates wirelessly. This ensures flexibility and robustness.

Your Advantages at a Glance

- **Connects to mobile phones with Bluetooth™ interface**
- **Contactless reading of checkpoints**
- **Automatic transmission of readings**
- **Emergency-call button**
- **Integrated motion sensor**
- **Patented dead spot bridging memory**
- **Online setting of date and time**

Technical Data

| | |
|----------------------------|----------------------|
| Dimensions (mm): | 45 x 175 x 36 |
| Housing: | Polycarbonate, black |
| Power supply: | 2 AA batteries |
| Protection class: | IP 54 |
| Weight: | approx. 200 g |
| Memory capacity: | 900 readings |
| Dead-spot bridging: | 40 readings |

Accessories

| | |
|----------------------------------|--|
| Leather or nylon holster: | for safe storing of the data collector during the patrol |
| Snake-Eye screwdriver: | Special screwdriver for battery case |
| Suitable Checkpoints: | Proximity Checkpoints KSC |
| Suitable GSM Phones: | Mobile phone with Bluetooth™ interface |
| Suitable Software: | Online Patrol for Windows |
